# 872G/GP

6WD Motor Grader

### MAKE GRADE AND MOVE AHEAD IN A BIG WAY

For almost six decades, John Deere motor graders have been building a reputation for outstanding control and effortless grading precision. Thanks to the best ideas of customers like you, we've achieved a legacy of industry firsts. Productivity boosters like exclusive automation features on Grade Pro (GP) models. Jobsite-proven dual-joystick controls. And wide-ranging grade-control options from cross slope to fully integrated SmartGrade models. With a tall mainframe that smoothly shoulders large loads and clears obstacles, the 872G/GP's exceptional balance, optimized performance specs, and reliable capability can help you take grading performance to the next level and your operation in a reimagined new direction.

#### **Precision matters**

On six-wheel-drive models precision mode allows the operator to manage a consistent speed via dial switch instead of inching pedal, maximizing productivity in all soil conditions. Six-wheel drive is adjustable on the fly to capably traverse difficult jobsites.

#### Power that checks and balances

Increased engine horsepower, torque, and blade pull over earlier models produce generous power and lugging ability, to deliver more power to the ground, easily pull through tough spots, or tackle steep hills. John Deere motor graders are designed with optimal weight distribution over each axle, for outstanding balance and grading performance.

#### Freedom of choice

Our G-Series Graders let you choose how work gets done. On our GP models, opt for fatigue-minimizing dual-joystick controls, choose state-of-the-art electrohydraulic (EH) fingertip armrest controls, or have the best of both worlds with a field kit that allows you to easily swap between the two. Our G models offer conventional lever-operated controls. And based on customer feedback, all models still have a steering wheel.

#### Count on cross slope

Standard on all GP models, cross slope maintains slopes by automatically adjusting one side of the blade while the operator controls the other. Cross slope can also be operated in "manual mode" as a slope meter. Automated cross slope simplifies holding a consistent slope by reducing operation to a single lever. Both dual-joystick controls and fingertip armrest controls come equipped with cross slope and can be easily upgraded to 3D SmartGrade.

#### Unlimited grade control

Industry-first John Deere SmartGrade Motor Graders are fully integrated and calibrated from the factory, arriving at your jobsite ready to work. In-cylinder position sensing allows the machine to stay on grade no matter what blade pitch, articulation angle, or circle offset you're running, without the limitations imposed by masted systems.

#### Picture yourself here

All-around visibility is virtually unobstructed, with a clear view to the heel and toe as well as behind the moldboard. You can also see the area beneath the front axle, for increased awareness of oncoming obstacles. LCD hi-vis monitor provides intuitive, pushbutton access to vital machine data displayed via simple, easy-to-navigate icons and menus. High-resolution rearview camera with dedicated in-cab monitor comes standard.

#### Uptime is everything

All daily service points, including fuel and diesel exhaust fluid (DEF), are grouped on the left side of the machine for convenient ground-level access. On the right, periodic-service points including the engine oil, fuel, hydraulic, transmission, and differential filter bank are within easy reach. Cooling package minus stacked coolers plus hinged swingout fan simplifies core cleanout. Variable-speed hydraulically driven fan runs only as fast or as often as needed, to conserve power and fuel while reducing noise.

#### **Premium productivity**

Featuring a fully sealed bearing and pinion that run smoother and quieter, the industry-leading design of the optional premium circle reduces operating costs while delivering 40-percent more torque and 15-percent more speed than a traditional circle. The premium circle eliminates having to compensate for wear in the circle and improves accuracy when using a grade-control system — especially with John Deere SmartGrade. And greasing intervals of only four zerks every 500 hours make the premium circle essentially maintenance free. Durable dual-input circle is also available.

#### **Precision Construction**

From grade management and obstacle detection to product automation features and jobsite intelligence, this suite of construction technology delivers productivity solutions to help you get more done, more efficiently.

John Deere construction equipment comes with in-base connectivity free from subscriptions or annual renewals. Analyze critical machine data, track utilization, review diagnostic alerts, and more from the John Deere Operations Center™. The Operations Center also enables John Deere Connected Support™, which uses data from thousands of connected machines to proactively address issues before they arise. Your dealer can also remotely monitor machine health, diagnose problems, and even update machine software without a trip to the jobsite.\*

\*Availability varies by region and product. Options not available in every country.

### 6WD MOTOR GRADER SPECIFICATIONS

## Additional equipment

**Key:** ● Standard ▲ Optional or special See your John Deere dealer for further information.

872G/GP	Operator's Station
	Low-profile ROPS/FOPS cab with HVAC (ROPS ISO 3471 / FOPS
	SAE 3449 Level II)
	Low-profile ROPS/FOPS cab utilizing laminated glass with
	fixed lower front and side opening windows
	Opening front and side windows (standard with Grade Pro)
	Keyless start with multiple security modes
	Fabric air-suspension seat with armrests and headrest
<b>A</b>	Premium heated, leather/fabric, high-wide-back, air-suspension
	seat with armrests (standard with Grade Pro)
•	Sealed-switch module with function indicators
	Electric rear-window defroster
•	Upper front windshield washers with intermittent wipers
	Upper rear windshield washers with intermittent wipers
_	Lower front intermittent wiper and washer
	Powered cab precleaner
	Decelerator pedal
<b>A</b>	Flip-down, right- and/or left-hand cab beacon with bracket
•	Cab prewired for beacon, radio, and auxiliary circuit
•	Front window sun visor
	Retractable rear sunshade
	Rearview mirrors, exterior (2) (SAE J985)
_	Heated exterior mirrors (2) (SAE J985)
	Fire extinguisher
	High-resolution rear camera with dedicated in-cab monitor
	(in some markets)
<b>A</b>	High-resolution front/rear-camera combination with dedicated
_	in-cab monitor
•	Retractable seat belt, 76 mm (3 in.) (SAE 386)
<b>A</b>	AM/FM radio with auxiliary and Weather Band (WB)
	AM/FM radio with Bluetooth®, auxiliary, and WB ready
	Push-button-activated cruise control

872G/GP	Electrical
	100-amp alternator (Tier 3/Stage IIIA and Tier 2/Stage II)
	130-amp alternator (FT4/Stage V [optional for Tier 3/Stage IIIA
	and Tier 2/Stage II])
	200-amp alternator (FT4/Stage V)
	Batteries (2), 1,400 CCA with 440-min. reserve capacity
	Left-hand engine compartment service-check light
	Right-hand engine compartment service-check light
	Transporting lights (4 halogen)
	Grading lights (10 halogen lights)
	Deluxe grading lights (18 halogen lights)
	Premium grading lights (18 LED lights)
	Tall front snowplow light bar
	Multifunction/multi-language diagnostic LCD color monitor
	Reverse warning alarm (SAE J994)
	LED brake and turn lights
	Moldboard
	Patented pre-stressed, high strength, wear resistant:
	3.96 m x 686 mm x 25 mm (13 ft. x 27 in. x 1 in.)
	4.27 m x 686 mm x 25 mm (14 ft. x 27 in. x 1 in.)
	4.88 m x 686 mm x 25 mm (16 ft. x 27 in. x 1 in.)
•	Quick-change and jackscrew-adjustable moldboard side-shift
	extreme-duty wear inserts
<b>A</b>	610-mm (24 in.) left- or right-hand extensions for 686-mm
	(27 in.) moldboard
<b>A</b>	Reversible overlay endbits
	Overall Vehicle
	JDLink™ wireless communication system (available in specific
	countries; see your dealer for details)
	Ground-level fuel and diesel exhaust fluid (DEF) filling
•	Fluid-sampling ports for engine oil and coolant, hydraulic oil, and axle and transmission fluids
	Vandal-protection locking for: Cab doors / Top tank radiator-
	variati protection rocking for eab doors 7 rop tank radiator

access door / Engine coolant surge tank / Hydraulic reservoir cap / Battery-disconnect switch / Ground-level electrical master disconnect switch / Fuel-tank door and cap / Toolbox

# Additional equipment (continued)

**Key:** ● Standard ▲ Optional or special See your John Deere dealer for further information.

872G/GP	Overall Vehicle (continued)
•	Environmental drains with hoses for engine, transmission,
	hydraulic, differential fluids, and engine coolant
	Hydraulically driven cool-on-demand reversing fan
	Banked easy-access vertical spin-on filters for hydraulic,
	transmission, and axle fluids
	Engine rotary ejector precleaner
•	Automatic differential lock
	Engine-stall prevention and auto shutdown
<b>A</b>	Adjustable rotary engine precleaner (FT4/Stage V)
	Heavy-duty air cleaner (FT4/Stage V)
•	Heavy-duty dual-input circle drive without slip clutch
	Heavy-duty dual-input circle drive with slip clutch
<b>A</b>	Premium circle
	Auto-Shift transmission
<b>A</b>	Auto-Shift PLUS transmission
<b>A</b>	Blade-impact-absorption system
<b>A</b>	Front and/or rear wheel fenders
<b>A</b>	Quick-service bank for transmission, hydraulic, engine oil, and
	engine coolant fluid changes
