

Tread lightly

Equipped with standard 12.6-inch-wide track, the 317G's ground pressure is only 5.5 psi. Step even more lightly with optional 15.8-inch-wide track exerting just 4.5 psi, for work in soft underfoot conditions and side-slope stability.

Unleash the beast

Exceptional pushing power and breakout force deliver the tractive effort and leverage to dig in where other machines just spin.

In the lift zone

Vertical-lift boom combines height and reach at the top of the lift path with outstanding stability. Along with a rated operating capacity of 2,125 pounds, the 317G CTL can precisely place pallets and carry big loads.

On the move

With its small stature, this compact is easy to trailer behind a standard pickup truck using the convenient front and rear tiedowns. Narrow-track option slims the 317G down to a maneuverable 65-inch width.

It's all about control

Electrohydraulic (EH) ISO-pattern joystick controls that allow customized machine operations based on operator preference are standard on the 317G.

Packed for productivity

Low center of gravity, 30-degree bucket rollback, optional ride control, and optional hydraulic self-leveling help keep forks loaded and buckets full. Add capacity with up to two sets of rear counterweights.

Big ideas that deliver

Large cab entryway with swing-out door, generous foot- and legroom, sealing and pressurization to minimize dust and noise, and adjustable high-back sculpted seat optimize operator comfort. Overhead panel conveniently puts machine data on the left and control switches on the right. Easy-to-read LCD monitor reveals a wealth of vital operating info and advanced diagnostics.

Seeing is believing

Clear sightlines to the cutting edge and bucket corners, above and below the lift arms, and the jobsite ahead and behind instill confidence in close quarters. Optional LED side lighting and rearview camera further enhance visibility.

Tackle the to-do list

Swing-out rear door enables easy, ground-level access to daily service checkpoints and cooling system components. Neat freaks and rental yards can appreciate the convenient cab-footwell access that helps speed cleaning.

Make the connection

Equip your CTL with your choice of over 100 available John Deere attachments to expand the flexibility of your operation. Increased auxiliary hydraulic flow and power compared to previous models boosts attachment performance. Add a snow blower, snow pusher, or angle broom to make quick work of winter's white stuff.

Standard personal-protection features include in-cabactivated boom lock and triple-interlock system that detects the presence of the operator to help keep harm's way at bay.

SWITCHING ATTACHMENTS ENABLES VERSATILITY IN ANY WEATHER OR SEASON

Remote diagnostics and support

To maximize uptime and lower costs, JDLink™ connectivity provides machine location, utilization data, and alerts to help you maximize productivity and efficiency. JDLink also enables John Deere Connected Support™. Dealers use Expert Alerts based on data from thousands of connected machines to proactively address conditions that may otherwise likely lead to downtime. Your dealer can also monitor machine health and leverage remote diagnostics and programming capability to further diagnose problems and even update machine software without a time-consuming trip to the jobsite.*

*Availability varies by region. Options not available in every country.

170					

- Meets EPA Final Tier 4/EU Stage IV emissions
- Yanmar 4TNV86CHT
- Auto-idle
- Automatic preheat
- Electronic injection system
- Engine air precleaner kit
- Fuel tank, 71 L (19 gal.)
- John Deere COOL-GARD™ II Extended-Life **Engine Coolant**
- John Deere Plus-50™ II 0W40 initial engine
- 4-cylinder 48.5 kW (65 gross hp)/ 45.6 kW (61 net hp), 2.1-L (128 cu. in.) displacement
- 5-micron primary fuel filter and water separator
- Cold-weather starting package with 925-CCA battery

Cooling System

- Coolant overflow bottle recovery tank
- Direct belt-drive cooling fan system
- No-tools-required swing-out oil cooler

Powertrain

- High-drive direct-drive motor
- Automatic spring-applied hydraulically released wet-disc park brake
- Transmission, single speed

Hydraulic System

- John Deere heat-treated, chrome-plated cylinder rods with replaceable bushings
- Connect-under-pressure auxiliary couplers
- Quick-check hydraulic fluid-level sight glass
- 1,000-hour, 5-micron hydraulic filter
- Axial-piston hydrostatic pump

- Automatic engine/hydraulic shutdown protection system
- Auxiliary hydraulics operator-presence system
- Courtesy lighting

Electrical (continued)

- Deluxe instrumentation EMU with: Operatorselectable monitoring – Hour meter, engine rpm, battery voltage, diagnostics, EMU configuration, engine coolant temperature, hydraulic oil temperature / LED warning indicators -Glow plug, seat switch, seat belt, door open, auxiliary hydraulics, park brake engaged, 2-speed engaged, stop, low engine oil pressure, engine coolant over-temperature, battery not charging, air filter restriction, hydraulic filter restriction
- Deluxe LED lighting package with additional side lights (2), front lights (2), and rear light (1)
- Front and rear halogen work lights
- Triple-interlock operator-presence control system
- Backup alarm
- Battery, 750 CCA

Operator's Station

- Deluxe cab headliner
- Keyless-start sealed-switch module with integrated anti-theft system
- Pull-down adjustable lap bar
- Quick-pivot ROPS
- Rear window
- Top window
