

# Make yourself at home

Spacious operator station has a wide entryway and backhoe- to excavator-style controls. Swing boom and foldable travel pedals are positioned for efficient operation and comfortable foot room. Optional four-season cab features front glass that delivers expansive visibility.

### Work, run, repeat

Reduced-tail-swing design maximizes maneuverability and performance in cramped places and tight spaces. Compact stature enables easy transport between jobsites, perfect for "dig-and-go" projects.

#### Go with the flow

More net horsepower than the previous model drives a larger hydraulic pump, increasing productive flow. Higher-flow hydraulic pumps power larger attachments more efficiently.

### Get back to it

Standard backfill blade enables the 30G to grade and fill, boosting machine versatility and stability when using attachments or working on uneven terrain.

## Resource management

Auto-idle automatically reduces engine speed when hydraulics aren't in use. Auto shutdown conserves precious fuel. Power/ economy modes optimize power for digging applications, further improving fuel efficiency.

# Quick-change artist

Standard selector valve allows the connection of two attachments at the same time by changing the valve position to divert supply/return oil from one to the other. Wedge-style coupler enables quick changes and accepts a wide variety of buckets and attachments, such as hydraulic hammers, plate compactors, and augers.

# It hardly seems like work

Track speeds automatically slow to low whenever a heavier load is encountered, then return to high when the load normalizes. No pedal or operator activation is required for high-speed travel.

# See what you can do

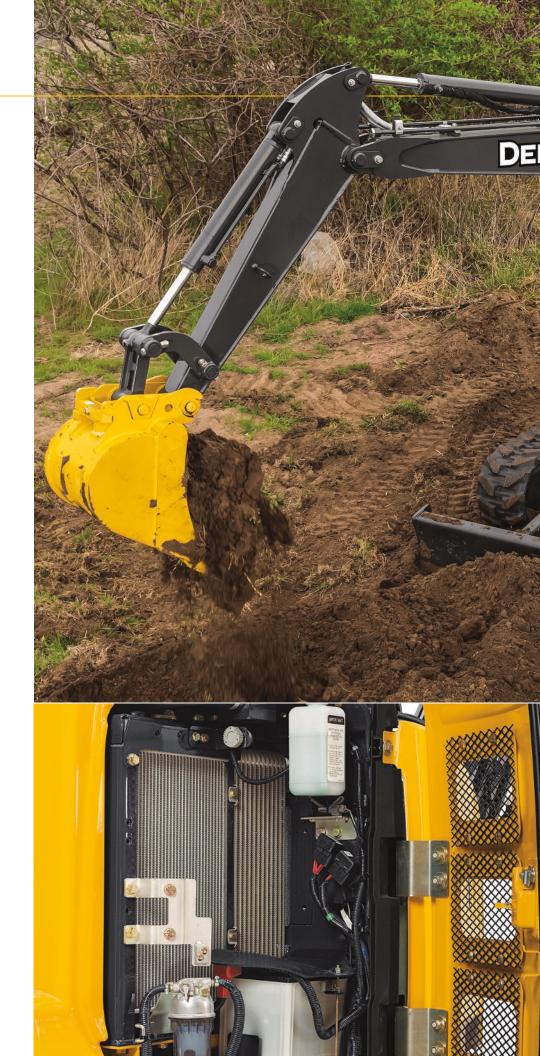

Conveniently located in a compartment beneath the seat, control pattern selector valve includes a sight glass that displays the selected pattern.

# As tough as they come

Heavy-duty side shields deflect material and impacts, protecting propel motors and boom/blade cylinders. Securely clamped steel hydraulic lines and CORDURA® covering on rubber hoses provide extra durability. Box-constructed X-frame and track frames are rock solid and rugged.

# Maintenance matters

Hinged door provides wideopen access to the side-byside oil cooler and radiator. Cooler system is designed to resist trash buildup and allow quick and easy core cleanout. Extended service intervals allow the machine to work longer before maintenance is needed.

# 30G COMPACT EXCAVATOR

# ACCEPTS ATTACHMENTS COMMON TO OTHER DEERE COMPACTS

# Make the most of your investment

Already own some John Deere attachments? Many models including buckets, hydraulic hammers, and augers also work on other compact machines so you can redefine fleet utilization — and your bottom line.

# Remote diagnostics and support

To maximize uptime and lower costs, JDLink™ connectivity provides machine location, utilization data, and alerts to help you maximize productivity and efficiency. JDLink also enables John Deere Connected Support™. Dealers use Expert Alerts based on data from thousands of connected machines to proactively address conditions that may otherwise likely lead to downtime. Your dealer can also monitor machine health and leverage remote diagnostics and programming capability to further diagnose problems and even update machine software without a time-consuming trip to the jobsite.\*

# Additional equipment

**Key:** ● Standard ▲ Optional or special

Canopy, Blade on Ground,

See your John Deere dealer for further information.

- Meets EPA Final Tier 4/EU Stage IV emissions
- Engine coolant to -37 deg. C (-34 deg. F)
- Engine preheater
- Fan quard
- Fuel/water separator
- Full-flow oil filter
- Isolation mounted
- Key start switch with electric fuel shutoff
- Single dry-type air filter
- Auto-idle
- Auto shutdown

#### Hydraulic System

- Auxiliary function right-hand pilot-lever control
- Auxiliary hydraulic lines to end of boom
- Auxiliary hydraulic lines with quick-couplers to end of boom
- Auxiliary selector valve
- Axial-piston swing motor
- Boom-swing foot control
- Excavator-to-backhoe control pattern change valve
- Open center with 2 variable-displacement pumps, 1 fixed-gear pump, and 1 pilot pump
- Hydraulic pilot-operated controls for boom, arm, bucket, swing, boom swing, blade, travel, and auxiliary functions
- Wet-disc swing brake

### Undercarriage

- Planetary final drive
- 2-speed axial-piston propel motors
- Rubber track, 300 mm (12 in.)

#### Upperstructure

- 360-deg. rotation
- Counterweight, 328 kg (723 lb.)
- Hinged service-access doors
- ROPS/TOPS/FOPS (canopy)
- ROPS/TOPS/FOPS (cab) with air conditioning and
- Vandal protection for service doors, fuel cap, and
- Reduced-tail-swing configuration

### Front Attachments

- Arm, 1.17 m (3 ft. 10 in.)
- Backfill blade, 1.74 m (5 ft. 9 in.)
- Boom, 2.465 m (8 ft. 1 in.)
- Mechanical guick-coupler
- Augers: Planetary / Chain drive / Bits / Bit adapters
- Hammers: Points / Tools
- Quick-coupler buckets: Bucket teeth / Ditching / Heavy-duty

#### Operator's Station

- Horn
- Hour meter

### Operator's Station (continued)

- Instrumentation lights
- Mode selectors (illuminated): Power mode (1) / Eco mode (1)
- Monitor system: Preheat indicator / Engine oil pressure indicator with alarm / Alternator voltage indicator / Fuel gauge and low-fuel-level indicator / Engine coolant temperature gauge and engine coolant temperature indicator with alarm / Hour meter / Work lights indicator
- Motion alarm with cancel switch
- Work lights switch
- Propel levers and foldable pedals
- 2 travel speeds with automatic shifting
- Seat belt, 51 mm (2 in.), retractable
- Seat belt, 76 mm (3 in.), retractable
- Suspension seat, vinyl, with fore/aft adjustment
- Suspension seat, cloth (cab only)
- Front screen

#### Electrical

- 12-volt accessory outlet
- Alternator, 55 amp
- Low-maintenance battery
- Blade-type multi-fused circuits
- Positive-terminal battery covers

Work lights: Halogen / 1 mounted on operator's station / 1 mounted on boom
